Topic of the Day: Improve Flexibility

From Mohit Juneja <mohit.juneja@centricconsulting.com>**Date** Sat 6/20/2026 11:32 AM**To** Mohit Juneja <mohit.juneja@centricconsulting.com>

Hi Everyone 🙌,

Hope you're having a great day! ☀️

1. Yoga Pose: Butterfly Pose – Sit with the soles of your feet together and gently flap your knees like butterfly wings to stretch your hips and inner thighs.
2. Breathing Exercise: Bunny Breath – Take three quick sniffs through your nose like a bunny, then one long exhale out your mouth. Repeat 5 times to relax and energize.
3. Wellness Tip: Remember to move and stretch a little every day, especially after sitting, to keep your muscles happy and flexible.
4. Video Suggestion for Parents: "Fun and Easy Yoga Stretches to Boost Kids' Flexibility" – A short video demonstrating safe stretches that children can enjoy at home.

Have a wonderful day and happy learning! 😊
